ColdHouse

Cold Storage and Ware House System

Purity and Freshness Guaranteed

What is ColdHouse ?

This user-friendly Cold Storage and Ware House Software Application has been developed after an in-depth analysis of the requirements in combination with practical experience of various implementations.

ColdHouse is a complete solution for Warehouse Management across the domain covering every aspects of the business. This application helps to manage operations, Billing, Client Interaction, Space utilization, Analysis, Reporting etc.

Windows based ColdHouse application model is widely accepted among the users due to its closeness to practical scenario of operations. Web based version allows MIS users and authorized client's online access.

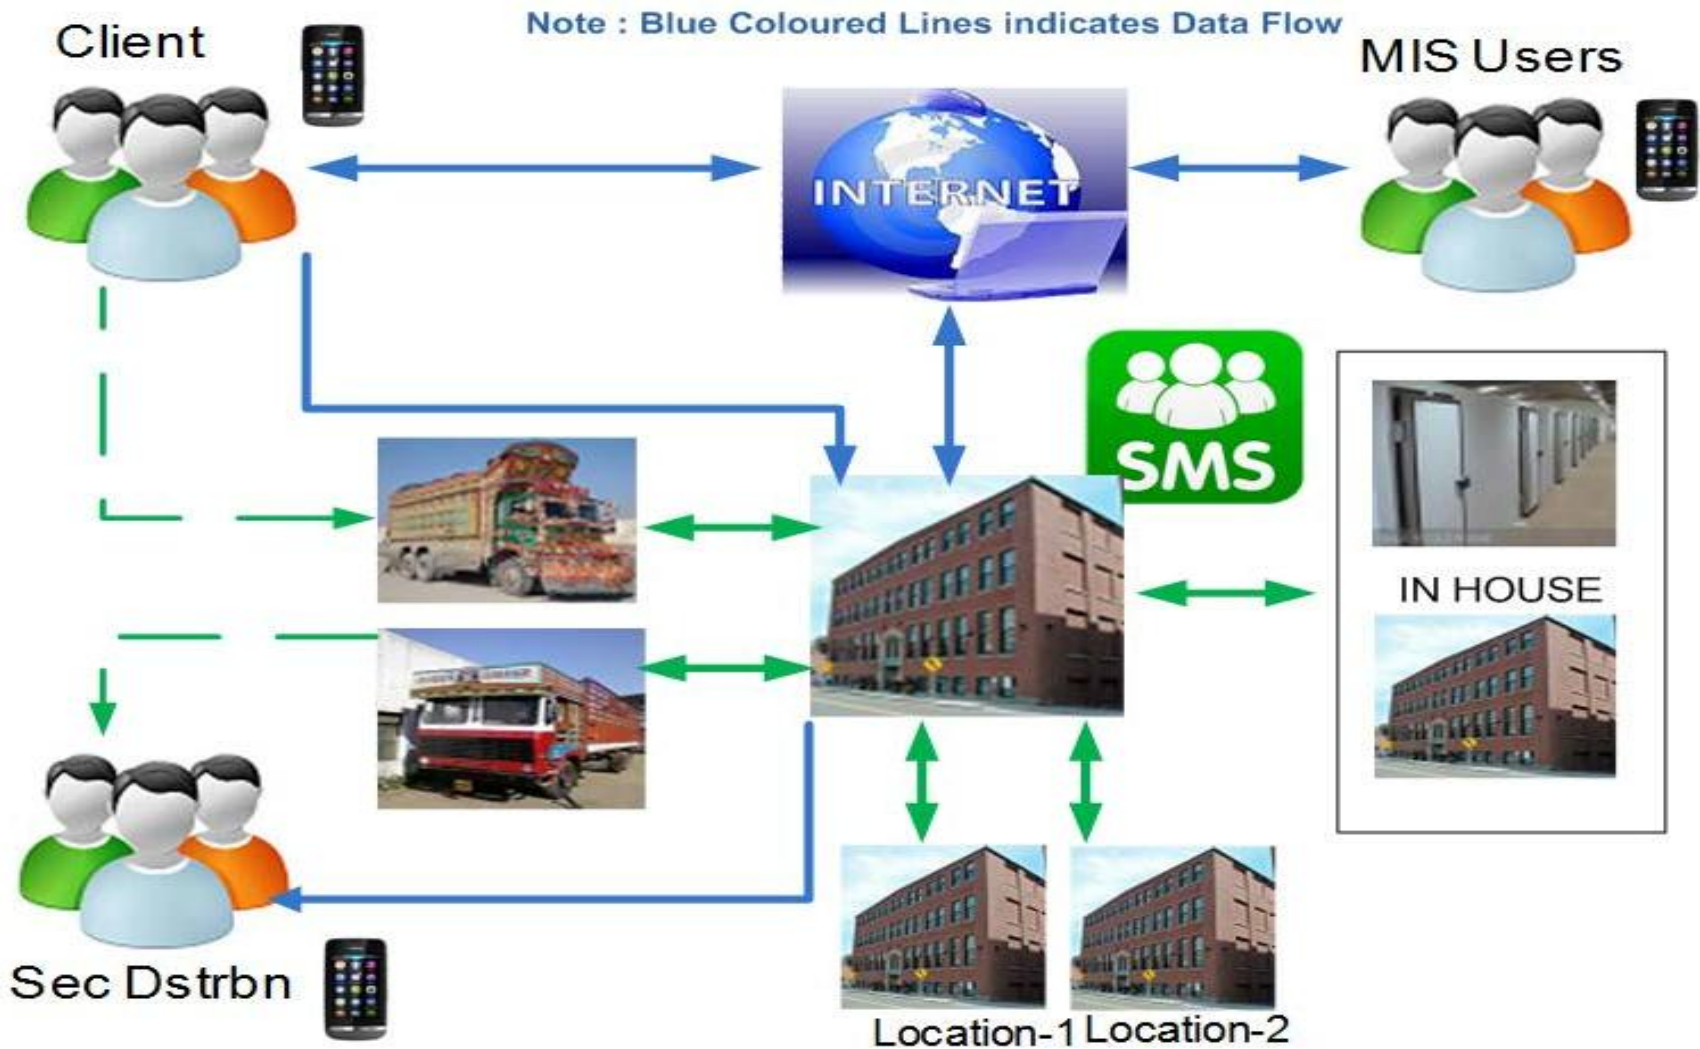

Ability of ColdHouse to integrate with **Barcode, RFID, SMS, Email and Tally** makes it most favourable among its counter parts.
